## Attendance:

N7DJE Timber  
KB7POT Mikel  
KC7USG Davena  
N7ACW Keith  
KJ7IEG Kun  
W7HJL Roy  
AL1Q Jeff  
K7MAT Todd  
KC7JIX Dave  
KI7KSF Lisha  
KJ7CYH Mark  
KC7ZMT Robert  
KK6FVG Avis  
KI7JIX Dave  
KB7AZZ Phillip  
W7OLI IAN Boardman  
KG7TYC Daniel  
KI7GBU Rick

The meeting was held on the 146.96 repeater due to COVID restrictions. The net was lead by President Timber Burton at 1900. There were 14 members and 4 visitors present.

---

## Secretary's report:

Minutes for last meeting was summarized by Mikel KB7POT.

---

## Treasurer's report:

Keith reported that we have \$1854.23 assets.

---

## Building and Grounds:

KI7JIX Dave - Mowed lawn for first time (this year). Will be spraying for weeds. Water not on yet. Looking good.

---

## Repeater Report:

Jeff AL1Q asked Rick KI7GBU if his repeater was still up.

KI7GBU - Cross-band repeater not on. But was on for 180 minutes without interference. So interference possibly fixed.

Jeff reports there was a power outage on 146.96, but otherwise working well. Mentioned that the 440 repeater is linked, can be linked through commands.

---

## Health and Welfare:

Keith N7ACW - reports that KH6IHB Nathan and KC7SZR Robin both tested positive for corona virus. Nathan is in in ICU.

Page 2 of 3

7 Apr 2020

Robert KC7ZMT asked about a vaccine. Mikel KB7POT said they were still in animal trials, still a year or so from a human trial. Lisha KI7KSF said that the mutating virus may make a virus impractical. Drug treatments are a better bet.

---

## ARES Report:

Keith N7ACW - Preparing script for SET on 19th April. Looking for more participants.

---

## VE:

Jeff AL1Q - VE session for April is canceled. Will wait to see on July session. Not planning special session. Asked league about remote sessions, but nothing planned there either.

---

## Old Business:

KJ7IEG Kun - APRS update: Has all parts for installation at the clubhouse, but still working on how to attach the antenna to the clubhouse tower. Gateway is still operating in his house. May look at using clubs 2 meter antenna temporarily. Dave KC7JIX has Antenna to mast hardware done, but working on attachment method.

W7HJL Roy - Generator transfer switch installed. Allows generator to run lights and radios. Two 20amp circuits (though generator won't handle that). Cord and generator location is not complete yet.

There was discussion how the generator to building cord will be constructed. Roy will email cost/price to officers. Please contact the officer if you have questions.

Roy, Kun, Avis will be talking to Spout Springs about field day with McKenzie KI7LXO.

---

## New Business:

Jeff AL1Q - Thanked people for checking on tonight's Winlink Drill.

Kun and Jeff are working on a second Winlink gateway for the area. Requesting that it be located at clubhouse? Software ready, but some radio hardware work to do. Will send out vote/email. (or do it on Groups.io)

---

## Show and Tell:

---

## Education:

---

## Meeting adjourned:

1940
